

Shoreline Water District

Request for Statements of Qualifications for Engineering Services

In accordance with RCW 39.80.010 and RCW 39.80.030, the Shoreline Water District encourages engineering consulting firms interested in providing services to the District to submit statements of qualifications (SOQs) for the following services; general engineering, fire flow analysis, water system modeling and hydraulic analysis, water system design, construction management services, geotechnical engineering, grant and loan preparation, land surveying, and facility needs assessment services.

Firms interested in providing any of the above services shall submit the following (please limit size of SOQ to fifteen pages):

1. Letter of introduction. Provide any general or introductory material the consultant may want to offer.
2. History and organization of the firm. Provide a brief history of your firm and a summary of your organization describing its major departments, offices, and staff size.
3. Describe your firm's experience in providing services to water utilities and other governmental agencies.
4. Provide a brief summary of experience of the personnel that you would assign to the District.
5. Interested firms shall submit two (2) copies of their SOQ.

In accordance with RCW 39.80.040, qualified firms shall be evaluated and placed on a roster. It is anticipated that a maximum of 4-6 firms will be selected for the roster. Selection shall be based on qualifications, experience, and references.

Interested firms may submit SOQs by no later than 4:30 pm, Friday, March 19th, 2010 to Denny Clouse, Operations Manager, Shoreline Water District, PO Box 55367, Seattle, WA 98155. For further information or questions please call (206) 362-8100.
